Course content

Section 1: Introduction

1 / 5|23min

• 1. Code of the Course

1min

Resources

• 2. Mac Installation

3min

• 3. Windows Installation

6min

• 4. Intellij idea

5min

• 5. VS Code

9min

Section 2: Dart Basics

0 / 21|2hr 21min

• 6. Output

7min

• 7. Variables

8min

• 8. Type Casting

8min

• 9. Operation

8min

• 10. Assignment Operation

5min

• 11. If Statements

5min

• 12. Conditional Operator

6min

• 13. Switch Statements

5min

• 14. Loops

9min

• 15. Nested Loops

6min

• 16. Control Statements

4mir

• 17. Degree App

7min

• 18. Number Methods

5min

• 19. String Methods

6min

• 20. Input

8min

21. Exception

7min

• 22. Iterable

11min

• 23. Lists

8min

• 24. 2D Lists

7min

• 25. Sets

6min

• 26. Maps

5min

Section 3: Functions

0 / 10|1hr 12min

• 27. Functions Types

11min

• 28. Default, Optional Parameter

5min

• 29. Passing Array through Function

5min

• 30. Recursion

5min

• 31. through Exception

7mii

• 32. Lambda Expression

8min

• 33. Higher Order Functions (HOF)

5min

• 34. Where Functions

13min

• 36. Typedef 5min **Section 4: Object Oriented Programming** [OOP] 0 / 19|2hr 12min • 37. Class, Object 12min • 38. Constructor 11min • 39. Static & this 11min • 40. Setter & Getter 4min • 41. Inheritance 5min • 42. Super 5min • 43. Super Constructor • 44. Override & Abstract 9min • 45. Mixins 5min • 46. Final vs Const 6min • 47. Enum 8min • 48. Generic • 49. Math Library 6min • 50. DateTime • 51. Operator Overloading 10min • 52. Polymorphism 8min

• 35. Map Function

9min

• 53. Lexical Closure 6min 54. Callable Class 2min 55. Extension Function **Section 5: Asynchronous Programming** 0 / 6|53min • 56. Future 9min • 57. Stream 9min 58. async / await 8min 59. Install package 7min 60. API 12min • 61. File System

8min **Section 6: The End**

0 / 3|30min

• 62. Null Safety
8min

• 63. required 6min

16min

• 64. Final Project
